

Primary Healthcare

Hendford Lodge Health Centre

Hendford Lodge GP Surgery and Ancillary Facilities
Client: Apollo Capital Projects
Project Value: £2.6m

SR Architects were the design lead with the successful supply chain team for the scheme which is for relocation of the existing GP practice into new facilities on a new site.

Fundamental to the scheme was the priority for design to be led by environmentally progressive methods in parallel to successful arrangement of functional content.

SR Architects were also party to site selection which was somewhat informed by the environmental issues.
